Karachi, Pakistan

PERSONAL PROFILE

I'm a results-driven software engineer with a proven track record of building high-quality web and mobile applications. My approach to the software development life cycle is comprehensive, and I'm deeply invested in every stage of the process, from initial design to maintenance and optimization. My expertise extends to a wide range of tools and technologies, including Html, CSS, JavaScript, React.js, Firebase, bootstrap, Tailwind CSS, Netlify, and GitHub. .

ACADEMIC PROFILE

Adamji govt science college

Intermediate in Computer Engineering (Adamji govt science college) - 2020 - 2021

Saylani mass it traning center

Diploma, Software Engineering - 2024

Freecodecamp

Responsive Web Design - 2024

SKILLS AND ABILITIES

- HTML, CSS, Bootstrap, Tailwind CSS, JavaScript, TypeScript and Redux.
- React.js, Next.js, React Native, and hooks for frontend application development and API consumption.
- Google Cloud Platform (GCP) and Firebase proficiency
- . Version control tools like GitHub, GitLab, and Bitbucket.
- Project management tools such as Jira and Trello.
- Netlify and Vercel for deployment.
- Familiarity with Agile Methodology

PROJECTS

Calculator

Calculator is a user-friendly application designed to perform basic arithmetic operations such as addition, subtraction, multiplication, and division.

Tools and Technology: HTML , CSS, JavaScript
Link: <https://calculator-my-first-app.netlify.app/>

Todo App

Todo App is a simple, intuitive task management tool designed to help users organize their daily activities.

Tools and Technology: HTML , CSS, JavaScript
Link: <https://todo-app-without-dummy-database.netlify.app/>

ENEMPLOYMENT HISTORY

IT Graduate Officer SMIT(Remote)

SMIT Group | 06/2024 - Present

- Developed intuitive, visually appealing user interfaces using React.js for web applications.
- Collaborated with UI/UX and backend developers for seamless integration and functionality.
- Optimized frontend app for quick loading, responsiveness, and smooth user experience.
- Actively engaged stakeholders and incorporated feedback into the development process

Frontend Developer Fiver(Remote)

Fiver Remote | 06/2024 - Present

- My core focus is on creating an exceptional user experience by building intuitive and visually appealing interfaces that make scholarship- iq.com application easy to use.
- I work diligently to optimize the frontend app to ensure quick loading times, and enhance responsiveness, and overall performance to provide a seamless user experience.
- I utilize my expertise in frontend development to craft clean, concise, and maintainable code that adheres to best practices, industry standards, and guidelines.
- Collaborating with my team, I actively participate in code reviews, providing feedback that focuses on enhancing code quality, maintainability, and scalability.
- Performed unit and integration tests for the codebase

Mobile App Developer Upwork(Remote)

upwork Remote | 06/2024 - Present

- Converted design and mockups to high-quality frontend components using Javascript and React Native Components.
- Built Mobile App using React Native and Ionic. Maintaining Company's mobile applications.
- Documentation Of Tasks. Worked on building out new features for the mobile applications.
- Technologies used include React Native

SOFT SKILLS

- Communication
- Problem Solving
- Team Player
- Time Management
- Leadership

CERTIFICATES

- SMIT soft skills certificate [Link](#)
- FreeCodeCamp Responsive Web Design [Link](#)

Counter App

Counter app is a simple, intuitive application designed to help users keep track of counts for various activities or items. Users can increment, decrement, and reset the counter with easy-to-use buttons.

Tools and Technology: HTML , CSS, JavaScript

Link: <https://counter-app-assignment.netlify.app/>

Quiz App

Quiz App is an interactive and user-friendly mobile application designed to test and enhance users' knowledge across various subjects.

Tools and Technology: HTML , CSS, JavaScript

Link: <https://quiz-app-my-own.netlify.app/>

INTERESTS

Some of my interests include;

- Technical Writing
- MERN-Stack development

VOLUNTEER EXPERINCE

- Altschool Pakistan Frontend Development Mentor
- Coding Class Instructor at SMIT dev center and Worked on different open source projects.
- Organized Tech Event
